R002510-010722	Good Morning, My name is TSgt Denarius Mitchell and I am the regional Air Force recruiter in Southwest, TX. The purpose of my message today has two parts. The first, each year our recruiting command is required to verify enrollment data that is specific to your institution in which we utilize for analysis of our service. The second, in order for our message to reach our intended audience we rely on school visits or lists from your school to reach those individuals whom might benefit from our scholarships and/or employment opportunities after graduation. In order to verify enrollment data, I have attached a PDF that breaks down the specific enrollment information that we seek to verify, it is NOT a verification of the entire school, it is however program specific. Please complete verification data below and return by email at the earliest possible date. Our verification is required to be sent by the 14th of February each year. The success of our all-volunteer Armed Forces rests on mutual cooperation between the educational community and the military. The U.S. Air Force/Space Force offers millions of dollars in scholarships and educational benefits as well as numerous job opportunities to collegiate students. Our most efficient means of reaching the student population is to conduct a mass mail campaign directly to student addresses. Please provide the following directory information for current and all subsequent terms as it becomes available for students attending your university : Student's name, Date of Birth, Mailing address, Telephone number, Primary major, Current year of study (1st, 2nd, 3rd,4th), Type of Study (MD, BSN, BS, MBA, etc), Gender, and E-Mail address. R002526-011322	Hello, My name is Libby Seline, and I am a data visualization reporter at the San Antonio Express-News. I've been working on a project about high school coaches' salaries. To do this, I had to work with two different datasets: one from the Texas Education Agency with every single teacher salary for the 20-21 school year and one from the University Interscholastic League that lists each name and the sports they coach. The UIL data has been very useful, and again, I'm thankful for the information you provided. That said, I've run into a few problems as I pair the data. The most recent data I should have should be from the 20-21 school year, but I've been emailing schools to clarify different salaries, and I'm learning that several coaches had not taught for the district until the 21-22 school year. So, I'm hoping to clarify how the data is collected so I can learn why the 20-21 data UIL provided has names of people who didn't begin coaching until 21-22. I have attached our previous conversation. I would've just reopened the request or replied to our conversation, but it appears that so much time as passed that I am no longer able to do that. Please give me a call or send me an email at your earliest convenience. I would love to further understand how UIL collected the data that I received. The Secular Student Alliance is an educational 501(c)(3) nonprofit national organization with student chapters at high schools, colleges, and universities across the country. The Secular Student Alliance provides free membership and programs to students. We do not solicit paid services to students. With 47 percent of college students now identifying as nonreligious and few public institutions providing appropriate, if any, resources, the Secular Student Alliance provides a unique community and leadership development for nonreligious students, who often face higher rates of harassment and animus than the general student population. Finding like-minded friends, developing a positive identity, and building a supportive community positively impact students' higher self-confidence, institutional satisfaction, higher educational achievements, and retention/graduation rates. In addition, participation in extracurricular activities increase leadership and teamwork abilities in students.

R002538-011622	Dear office, I’d like to report a trespassing in my condo off-university campus [REDACTED] and may need instructions on what to do next. Around 6:40 am, My roommate found a man in the living room of our condo, who is trying to open my roommate’s bedroom door but failed. (We forgot to lock the front door last night.) That man then tried to enter the Storage Room, which has pass to my roommate’s bedroom. My roommate message my another roommate and he chase away the trespassing man. It’s a white man with short gold hair, in gray sport pants, white sneakers. He seems sober but not drunk. Since we live on the third floor, it shouldn't be possible for criminals to go door-to-door trying to open doors, so we suspect someone is squatting and are afraid of further actions. We haven't called the Austin police. Thanks for the help, [REDACTED] [REDACTED]

R002557-012122	To give some context, I am currently a senior mechanical engineering student at UT Austin, and my team is working on a project to [REDACTED]. We were wondering if we could get some statistics on bike theft in the UT Austin area, specifically the number of bikes reported stolen on campus, from 01/01/2015 – 01/01/2022, broken down by month and where/when (time) each theft occurred. Something like the Daily Crime Log (https://utdirect.utexas.edu/apps/fasweb/utpd/nlogon/crimelog/?_ga=2.265768141.336020437.1642691348-1958123623.1571336331) but only including bike thefts and ranging from 01/01/2015 to 01/20/2022 would be perfect. If that time range is too large, 01/01/2017 would work as well, but I was just hoping to get as much data as possible so we could show some stats of how bike theft has changed over time in the UT Austin area. If the log can go farther back than 01/01/2015 that would be even better.

R002596-012822	Under the Texas Public Information Act, Tex. Gov't Code §552.001 et seq., I am requesting the employee directory information for all current University of Texas at Austin employees, with the following fields for each: Name, home and local addresses, phone numbers, date of birth, email addresses, gender and race. I am not seeking any records that are prohibited from release either by statute or previous rulings by the Attorney General or the courts. In order to allow the university to expedite this request and avoid the necessity of seeking a decision from the Office of the Attorney General, I agree to the redaction of information that is subject to both mandatory and discretionary exceptions, provided such redactions are clearly labeled on the information received. Please let me know if you feel any records in the fields I've requested are confidential, and I'll consider amending my request. Also, please notify me if clarifying the request might speed the release of the data, or reduce any programming time. Specifically, I'm seeking a spreadsheet, database, or delimited text file(s) — not paper records or a PDF created from data — I am comfortable working with large data sets and can receive the records in a variety of formats (.dbf, .csv, .mdb, etc) and media (CD, DVD, ftp). If there are any fees for searching or copying these records, please inform me of the cost. However, I would also like to request a waiver of all fees in that the disclosure of the requested information is in the public interest and will contribute significantly to the public's understanding of voter registration and participation. The Texas Public Information Act requires that you "promptly produce" the requested records unless, within 10 days, you have sought an Attorney General's Opinion. If you expect a significant delay in responding to this request, please contact me with information about when I might expect copies or the ability to inspect the requested records. If you deny any or all of this request, please cite each specific exemption you feel justifies the refusal to release the information and notify me of the appeal procedures available to me under the law. If you have any questions in the interim, you may contact me at the provided email address.

R002609-013122	<p>This is a Public Records Request. Arena NIL is dedicated to helping our partners build an NIL industry that places the interests and long-term well-being of student-athletes first. This public records request is part of our ongoing, long-term national research program to meet this goal. Under the applicable institutional, local, state, and/or federal statutes, rules, and/or regulations, I am writing to request that you provide me with the following public records: Presentation slides, promotional material, or other records produced or utilized between July 1, 2021, and January 30, 2022, for training student-athletes in name, image, and likeness policies, rules, regulations, and/or best practices, including trainings related to personal brand building and use of social media. Any records produced between July 1, 2021, and January 30, 2022, that document the existence and/or details of specific deals that individual student-athletes at your institution have made and reported to your institution pursuant to the NCAA's revised regulations that permit student-athletes to profit from the use of their name, image and likeness. Any compendia, summaries, reports, or other records produced between July 1, 2021, and January 30, 2022, that track, record, summarize or analyze collectively the deals your student-athletes have registered with your institution regarding the use of their name, image and likeness. A current list or database of all registered Professional Service Providers (PSP) or agents and their contact information (if available: email addresses, mailing addresses, telephone numbers) and any other public information recorded by the university for PSPs or agents who have registered with your institution to provide representation or other services to your student-athletes in the use of their name, image and likeness. Professional Service Providers (PSP) include, but are not limited to, an agent, lawyer, marketing/brand manager, public relations representative, etc. Copies of any policies and procedures your institution has adopted that are currently in force as of the date of this email regulating student-athletes entering into agreements on the use of their name, image and likeness. I ask that you please provide records as they are identified and become available for release and do not wait to release all responsive records in a single batch. If you deny any part of this request, please indicate the basis for doing so for each specific element of the request. For example, if for one particular element of the request, there are no responsive records that exist in your possession, please indicate this in your response. If for another element of the request, responsive records do exist in your possession but you have determined they are exempt from release under law, please cite the specific legal authority that, in your opinion, exempts those specific documents from release under law. Thank you in advance for your assistance with these requests. And please do not hesitate to contact me if you have any questions.</p>

R002669-021422	Hello, Under the Texas Public Information Act, I'd like to request an electronic listing of all current Faculty and Staff employees. I am not seeking any records regarding student employees. Specifically, I'm seeking a spreadsheet, database or delimited text file(s) — not paper records or a PDF created from data — with the following fields for each employee: Name, title, Department/Office, race, gender, full-time/part-time status, hire date and gross annual salary in addition to any other salary/payment received for incidental duties or grant funding. If you are unable to produce any of these fields, please let me know! In addition, please include any lookup tables that may be needed to interpret the data. For example, if departments are listed with codes linked to a separate table, I'll be happy to join the records myself, rather than require your staff to do so. I want to stress that I'm not seeking any records that are prohibited from release either by statute or previous rulings by the Texas Attorney General or the courts. Please let me know if you feel any records in the fields I've requested are confidential, and I'll consider amending my request. Also, please let me know if clarifying the request might speed the release of the data, reduce any programming time and, most important, avoid a referral to the Attorney General. I'm comfortable working with large data sets and can receive the records in a variety of formats (.dbf, .csv, .mdb, etc) and media (CD, DVD, ftp). I seek this information in the public interest as a journalist, and not for a commercial purpose. This data is published and publicly available at texascollegesalaries.com Therefore, I am requesting that you waive any fees, as allowed under the Act. Thank You, Antonino Cummings

R002703-021722	Hello, Under the Texas Public Information Act, I'd like to request an electronic listing of all of the majors and colleges and the number of students for each major and college for the 2021-2022 academic year broken down by the colleges and majors they serve, similar to as listed in “https://catalog.utexas.edu/general-information/appendices/statistical-summaries/”. Specifically, I'm seeking a spreadsheet, database or delimited text file(s) — not paper records or a PDF created from data — with the following fields for each application received: name of majors and their respective number of students, and name of colleges and their respective number of students. Please let me know if you feel any records in the fields I've requested are confidential or unclear, and I'll consider amending my request. Also, please let me know if clarifying the request might speed the release of the data, reduce any programming time and, most importantly, avoid a referral to the Attorney General. Specifically, I'm seeking a spreadsheet, database or delimited text file(s) — not paper records or a PDF created from data — with the following fields for each application received: name of majors and their respective number of students, and name of colleges and their respective number of students. My colleague, [REDACTED], filed the above request; but I would like to additionally request an electronic listing of the salaries of all advisors of all colleges and departments within UT Austin for the 2021-2022 academic year. Please let me know if you feel any records in the fields I've requested are confidential or unclear, and I'll consider amending my request. Also, please let me know if clarifying the request might speed the release of the data, reduce any programming time and, most importantly, avoid a referral to the Attorney General. I seek this information in the public interest as a journalist for The Daily Texan, and not for a commercial purpose. Therefore, I'm requesting that you waive any fees, as allowed under the Act. R002767-030322	Under the Texas Public Information Act, Tex. Gov’t Code §552.001 et seq., I am requesting the student directory information for all Spring 2022 University of Texas at Austin students, with the following fields for each: Name, major, home and mailing addresses, phone numbers, date of birth, and email addresses. I am not seeking any records that are prohibited from release either by statute or previous rulings by the Attorney General or the courts. In order to allow the university to expedite this request and avoid the necessity of seeking a decision from the Office of the Attorney General, I agree to the redaction of information that is subject to both mandatory and discretionary exceptions, provided such redactions are clearly labeled on the information received. Please let me know if you feel any records in the fields I've requested are confidential, and I'll consider amending my request. Also, please notify me if clarifying the request might speed the release of the data, or reduce any programming time. Specifically, I'm seeking a spreadsheet, database, or delimited text file(s) — not paper records or a PDF created from data — I am comfortable working with large data sets and can receive the records in a variety of formats (.dbf, .csv, .mdb, etc) and media (CD, DVD, ftp). If there are any fees for searching or copying these records, please inform me of the cost. However, I would also like to request a waiver of all fees in that the disclosure of the requested information is in the public interest and will contribute significantly to the public’s understanding of voter registration and participation. The Texas Public Information Act requires that you "promptly produce" the requested records unless, within 10 days, you have sought an Attorney General's Opinion. If you expect a significant delay in responding to this request, please contact me with information about when I might expect copies or the ability to inspect the requested records. If you deny any or all of this request, please cite each specific exemption you feel justifies the refusal to release the information and notify me of the appeal procedures available to me under the law. If you have any questions in the interim, you may contact me at the provided email address.

This document is usually around 100 pages long (roughly) and is mandated to be made publicly available upon request. Aside from outlining a plan for the pursuit of equal employment opportunities for protected minorities, the document also includes institutional statistics on the number of Women, racial minorities, Persons with Disabilities, and protected Veterans employed by the university as faculty and staff. Any help you provide to these ends is greatly appreciated. If needed, my contact information is listed below.</p>
R002828-031922	<p>Under the Texas Public Information Act, I'd like to request an electronic listing of the 4-year graduation rates of the University of Texas at Austin football team from UT from the school years 2015-2016, 2016-2017, 2017-2018, 2018-2019, 2019-2020, and 2020-2021. Specifically, I'm seeking a spreadsheet, database or delimited text file(s) — not paper records or a PDF created from data — with the following fields for each school year listed: number of UT football players classified as seniors and below that graduated within four years' time from UT, the total number of UT football players classified as seniors, and a percentage estimate of the number of UT football players that graduate from UT within four years. In addition, please include any lookup tables that may be needed to interpret the data. For example, if departments are listed with codes linked to a separate table, we'll be happy to join the records ourselves, rather than require your staff to do so. I want to stress that I'm not seeking any personal information of the football players. I am not requesting any names or identifying information. Please let me know if you feel any records in the fields I've requested are confidential, and I'll consider amending my request. Also, please let me know if clarifying the request might speed the release of the data, reduce any programming time and, most importantly, avoid a referral to the Attorney General. We're comfortable working with large data sets and can receive the records in a variety of formats (.dbf, .csv, .mdb, etc) and media (CD, DVD, ftp). I seek this information in the public interest as a journalist, and not for a commercial purpose. Therefore, I'm requesting that you waive any fees, as allowed under the Act.</p>

I am not seeking any records regarding student employees. I had previously requested salary in addition to additional duties + allowances, but I've found that it'd be more accurate for my purposes to request base salary alone. R002883-040422	Hi, I'm a reporter for the Daily Texan and I am looking into dining hall spendings over time (KinsDining, J2, and JCL). Under the Texas Public Information Act, I'd like to request an electronic listing of University Housing and Dining specific dining hall budgeting and expenses from on campus dining halls from Jan. 1, 2018 to Dec. 31, 2018. Specifically, I'm seeking a spreadsheet, database or delimited text file(s) with the following: broken down dining hall budgets from each year, changes in worker wages, number of workers, equipment expenses, amount spent on food, and any other expenses (If you can't produce all these fields, please let us know). I would like this data to compare spending year over year. In addition, please include any lookup tables that may be needed to interpret the data. For example, if the budgeting data files are very large and not broken down, we'll be happy to look through the records ourselves, rather than require your staff to do so. Also, please let me know if clarifying the request might speed the release of the data, reduce any programming time and, most importantly, avoid a referral to the Attorney General. I seek this information in the public interest as a journalist, and not for a commercial purpose. Therefore, I'm requesting that you waive any fees, as allowed under the Act. Thanks! [REDACTED]

R002885-040422	Under the Texas Public Information Act, Chapter 552 of the Government Code, I request access to or copies of records of code 1000 new employees hired by the University of Texas between March 24, 2022 and April 4, 2022. I request access to the first and last names of the new employees, title, department and email address. R002886-040422	I am the loan analyst assigned to assist with researching [REDACTED]' false certification (identity theft) claims regarding Title IV federal student aid (parent PLUS loan(s)) obtained for [REDACTED]' (aka [REDACTED]) attendance at your institution. Our servicer (Maximus) attempted to obtain records, but your agency was unable to locate the student (see attachment); however, NSLDS & COD show loans were obtained by your agency and the parent's promissory note lists the student as [REDACTED]. As part of this review, I am officially requesting any/all information related to the student's admissions application process (enrollment form, et cetera), verification of parent borrower's identity, any verification of FAFSA information, any school records related to the parent PLUS loan application or the parent's intent to apply for PLUS loan funds, student's class activities (attendance info, transcript info, class registration, et cetera), student's financial/monetary transaction history related to how federal student aid funds were used, refund information (such as copies of refund checks – as a result of parent PLUS loan funds), et cetera. Any additional information you feel may be pertinent to my investigation is also greatly appreciated. If you are able to locate the student, kindly provide any additional info (other than the student's school ID # (as this is not part of the FAFSA)) that could aid with future requests. FERPA regulations found in the Code of Federal Regulations (CFR 34, Part 99) clearly state that prior consent is NOT required to disclose information that is in connection with financial aid for the purposes of determination of eligibility of aid, amount of aid, conditions for the aid or enforcement of the terms & conditions of the aid (see 99.31(a)(4)(i)(A-D)).
R002887-040422	I'd like to request all 2020 and 2021 purchasing records. I understand there is a central database of these records. The format should be a .csv or .xls/.xlsx format. At a minimum, it should contain item(s) ordered, PO#, Vendor/supplier name, Price(s) paid, date of order, item catalog #. Any additional information will be helpful. This should include both purchases made with purchase orders and p-cards, if applicable, and any on-site stocking by vendors.

R002888-040422	Under the Texas Public Information Act, I'd like to request an electronic listing of all current and former University of Texas at Austin employees. Specifically, I'm seeking a spreadsheet, database or delimited text file(s) — not paper records or a PDF created from data — with the following fields for each employee in each fiscal year for which it is available: name, title, department, campus, race, gender, full-time/part-time status, hire date, promotion date, last day of employment (if applicable), gross annual salary, and any salary components you have broken out, such as fringe or bonus pay. (If you can't produce all these fields, please let us know). I am seeking this information in separate data files for each fiscal or academic year (whichever is easier for you to provide) going back to FY2000, or the earliest year (and ever year thereafter) for which you have it available in a digital format. In addition, please include any lookup tables that may be needed to interpret the data. For example, if departments are listed with codes linked to a separate table, we'll be happy to join the records ourselves, rather than require your staff to do so. I want to stress that I'm not seeking any records that are prohibited from release either by statute or previous rulings by the Texas Attorney General or the courts. Please let me know if you feel any records in the fields I've requested are confidential, and I'll consider amending my request. Also, please let me know if clarifying the request might speed the release of the data, reduce any programming time and, most important, avoid a referral to the Attorney General. We're comfortable working with large data sets and can receive the records in a variety of formats (.dbf, .csv, .mdb, etc) and media (CD, DVD, ftp). I seek this information in the public interest as a researcher, and not for a commercial purpose. Please let me know if there will be a fee associated with this request, as I have a limited budget. Thank you for considering my request.

R002892-040522	Hello, I've been referred to you by Jennifer Burnett, Assistant General Counsel & Public Information Coordinator, Office of the General Counsel, The University of Texas System. I'm seeking information regarding the Men's Basketball season-ticket seat-selection process, for next season. My goal is to figure out a way that my family can all sit together at the basketball games. My wife and I met at a U.T. basketball game in Gregory Gym, in 1965. We have been constant basketball attendees ever since. We were season ticket holders the first year that the Frank Erwin Center opened, and for many years afterward. Our five children have attended games since they were age 0. Now, they are grown, and their own children come to games. In 2021-2022, three generations of us came to games, and all sat together. In purchasing season tickets for next season at the new Moody Center, we are only allowed to buy a maximum of four seats together. We need about 12, minimum. So, I'm trying to determine how to make that happen. The best idea I've come up with is to acquire enough "Loyalty Points" so that we'll be high enough on the seat-selection list that we'll be able to buy our seats at least somewhat close together. Today, I chatted online with the U.T. Ticket Office and asked for data that shows the relationship between the number of "Loyalty Points" a season-ticket holder has and the order in which he is ranked in the seat-selection process. They declined to provide me with any information on that, and they sent me your email address. So, my question to you is...May I, please, have the following data: A chart or a spreadsheet correlating these two categories of information: 1) A season-ticket-holder's rank on the "Order-of-Seat-Selection" list vs. 2) the number of loyalty points that season-ticket holder has. For example, of those people who have applied for season tickets (men's basketball), how many loyalty points does the first person on the seat-selection list have? How many points does the 10th person on the list have? How many for the 50th person in order? How many loyalty points for the 100th rank; for the 200th; for the 500th; for the 1,000th; for the 1,500th, and for the 2,000th person on the order-of-seat-selection list? I would expect this to be readily available public information, because I'm not asking for names or personal information. The full data set would be preferable, but even the specific data points I listed above would go a long way toward helping me know what to do, re Loyalty Points. Because the deadline for acquiring Loyalty Points is April 8th, there is some urgency attached to my request. I thank you for your attention to this question. Sincerely, [REDACTED]

Specifically, I'm looking for two separate percentage breakdowns of the medical school students by white, Asian, hispanic, international, Black, unknown, and Native American. One for the school year starting in the fall of 2020 and one for the fall of 2021. If different category titles are used by the medical school, that is not a problem and could still fulfill this request. I would like to make it clear I'm not seeking any identifying information of the students, just summary data. Please let me know if this information is already publicly available and where I can find it as I was not able to find it anywhere on the school's website. Also, please let me know if clarifying the request might speed the release of the data, reduce any programming time and, most importantly, avoid a referral to the Attorney General. R002944-041522	I would like to obtain a copy of my past GRE score record from UT Austin. I was a former UT Austin student (UT EID [REDACTED]) I graduated from UT Austin with a Master's degree in petroleum engineering in 2014. Recently I plan to apply for the UT Austin weekend MBA program, in which a GRE/GMAT score (current or expired both accepted) is required in the application. I contacted ETS to obtain a copy of my GRE exam score which I took in 2010. But they cannot provide such because ETS only retains GRE scores for up to 5 years. Therefore I called the UT Austin Graduate Admission office to see if I can obtain a copy of the GRE score from the University so I can attach it to the MBA application. Any format of the GRE score should be fine. I was referred by the Graduate Admission office to submit an open request to obtain such a score. The GRE score was used for my application/admission to UT Petroleum Engineering in 2010/2011. Please advise if you can help. Or if not, please direct my request to any entity that you think it may help. I will need a copy of my GRE score ASAP, as the application deadline is in 1 month. Thank you so much!

R002953-041822	https://www.kxan.com/news/local/austin/more-affordable-housing-for-ut-grad-students-coming-to-east-austin/ the above article refers to the East Campus Graduate Housing Complex (ECGHC) development, stating: "During the construction phase, American Campus Communities will participate in developing the project, and advisory firm Brailsford & Dunlavey will give insight throughout the development process, according to the college." To the extent not prohibited by trade secret protection, etc, it would be helpful to know what services Brailsford & Dunlavey actually do regarding the ECGHC. I would assume there is some standard of detail that they would need to provide through this request, beyond stating that they will "give insight" that would not violate their trade secrets. This is a request for as much detail as possible to this end, particularly contractual documents between B&D and UT regarding the ECGHC. This is also a request for contractual documents between American Campus and UT regarding work to be completed on the ECGHC. Really the info I need to discern is the dates of the contracts and the scope of work that was contracted for. (I wrote an email about this separately, but thought maybe to duplicate it here to be sure). Thanks!

It would also be helpful for me to understand when these meetings first started....sometime before the 2015 east campus master plan I believe. This is also a request for meeting minutes of the first 4 meetings between Blacklands NA and UT. Finally this is a request for meeting minutes of any meetings in the last 24 months between UT and City of Austin regarding housing, as mentioned by President Hartzell. Thank you.

R002958-041922	Under the Texas Public Information Act, I'd like to request an electronic listing of the following information for all current UT-Austin employees (including faculty, staff, and administrators). Specifically, I'm seeking a spreadsheet (e.g. Excel file) — not paper records or a PDF created from data — with the following fields for each employee: Name, job title, department, race/ethnicity, gender, hire date, annual salary, job code, and job grade. If you can't produce all of these fields, please let me know. In addition, please include any lookup tables that may be needed to interpret the data. For example, if departments are listed with codes linked to a separate table, we'll be happy to join the records ourselves, rather than require your staff to do so. I want to stress that I'm not seeking any records that are prohibited from release either by statute or previous rulings by the Texas Attorney General or the courts. Please let me know if you feel any records in the fields I've requested are confidential, and I'll consider amending my request. Also, please let me know if clarifying the request might speed the release of the data, reduce any programming time and, most important, avoid a referral to the Attorney General.
